

Lehigh Valley Engine

Thank you to the Ron Brennon Family for the loan of this photo.

**The Washington Street Station**

This large brick structure was built by PA & NY in 1884 as a freight depot. Later, it was used as a station by several rail lines, including Barclay, Lehigh Valley, State Line & Sullivan & Susquehanna & New York. The last load of freight to leave the building was on March 31, 1976.

One cannot over-emphasize the importance that railroads had in the continued development of Towanda as a commercial center, beginning with the first PA & NY train in September of 1869. In the 1870's, approximately six passenger, four freight and nine coal trains arrived at and departed from Towanda each way, every day. Train traffic persisted even on Sundays when their passing interfered with services at nearby churches.

**.....Their "buy local" philosophy here is not just simply about food. They do their best to spotlight area artists and musicians..... It's so much more to an evening out than a fast food drive thru.....**

-B. Coyle, Mountain Home Magazine

**BUSINESS HOURS**
